## Experience

Devsinz Intern Connect  
MERN Stack  
August 2024 - Present (1 year)

Karāchi, Sindh, Pakistan

## Projects #

1. **\*\*Online Job Portal and Recruitment System\*\***: The Online Job Portal and Recruitment System is a comprehensive platform designed to connect employers and job seekers seamlessly. It features user authentication for both employers and job seekers, allowing them to register, log in, and manage their profiles. Employers can post job openings and track applications, while job seekers can browse listings and submit applications. The system aims to streamline the recruitment process, making it efficient and user-friendly for all parties involved.

## Belike Group

MERN Stack Developer

November 2024 - December 2024 (2 months)

Lahore, Punjab, Pakistan

Working at BeLike Group on projects including a Job Portal, a Travel and Tour platform, and the BeLike Group Portal, focusing on development and enhancing user experience.

## Innovixion Tech

Full Stack Developer

May 2024 - September 2024 (5 months)

## Projects #

1. **\*\*Notes Taking Project\*\***: Enables users to create, organize, and manage notes efficiently, featuring options for editing, deleting, and categorizing notes for easy retrieval.

2. **\*\*Contact Management System\*\***: Allows users to efficiently store, manage, and organize their contacts with features for adding, editing, and deleting contact information.

3. **\*\*Movie Website\*\***: Provides users with an interactive platform to browse, search, and discover movies, featuring details like ratings, reviews, and trailers.

## CodeAlpha

Web Development

February 2024 - September 2024 (8 months)

Lucknow U.P

#### Projects #

1. **\*\*To Do List Project\*\***: A simple app to create, organize, and manage daily tasks with the ability to add, delete, and mark tasks as completed.
2. **\*\*Music Player Project\*\***: A web-based music player featuring playlist management, search functionality, and controls for play, pause, and skip.
3. **\*\*Weather Dashboard Project\*\***: A dynamic app that fetches and displays real-time weather data for various cities using a weather API.
4. **\*\*Social Media Dashboard Project\*\***: A dashboard for managing social media accounts, tracking analytics, and viewing performance insights.
5. **\*\*Expense Tracker Project\*\***: A user-friendly app to log and track daily expenses, with visual reports to monitor spending habits.
