Objective

To leverage my expertise in MERN Stack development to design and deliver dynamic, user-focused, and scalable web applications. Seeking a challenging position where I can utilize my technical skills in JavaScript, React, Node.js, and MongoDB to contribute to innovative projects, while continuously enhancing my knowledge and growing professionally.

Experience

- **2 Year**   2022 - 2024

- **Devsinz Intern Connect**   2024 - 2024
  MERN Stack Developer
  Built and deployed web applications using MERN stack. Designed APIs and implemented user authentication. Debugged and resolved technical issues.

- **CodeAlpha**   2024 - 2024
  MERN Stack Developer
  Built and deployed web applications using MERN stack. Designed APIs and implemented user authentication. Debugged and resolved technical issues.

Education

Course / Degree	School / University	Grade / Score	Year
Bachelor of Science in Computer Science	University of Agriculture Faisalabad.	3.58 CGPA	2024

Skills

- HTML
- CSS
- JavaScript
- Node Js
- Express Js
- React Js
- MangoDB

Projects

- **AH VoiceGPT (Final Year Project)**

  Developed an AI-powered voice assistant integrating ChatGPT to enable seamless voice-based input and output for real-time interactions, enhancing accessibility and automation.
- **Design Image to Code Converter**

  Engineered a tool that converts design images (Figma, screenshots) into functional code in any programming language, streamlining development workflows.
- **Online Job Portal and Recruitment System**

  Built a platform where employers can post jobs and job seekers can apply, offering a seamless recruitment solution with role-specific functionalities.
- **Travel and Tour Management System**

  Designed a comprehensive system enabling users to book hotels, tours, and travel packages while allowing companies and hotels to manage bookings efficiently.
